

How ?How ?How? Activity

Best used: For coming up with a detailed action plan once an issue has been identified and prioritised using diamond winner.

Equipment required: Long roll of wall paper or flip chart paper and marker pen

How it works: Having identified a particular area / topic (e.g. need to improve the school dining room) in which participants would like to see change, write the topic in the left hand corner of the roll of paper, and lay it on the ground so that it runs horizontally. Now ask the group **How** will we improve the school dining area? Whatever their answer (e.g. paint the walls), turn it into another question by prefixing it with How? e.g. **How** are we going to paint the walls? Answer: ask the art department. Q **How** are we going to ask the Art Dept Answer: Mr Davies will. You can then agree who will do this task and by when.

When a line of thought has been pursued to an obvious end, return to the original question and pursue a new line of thought. These actions can then be incorporated into the FFLP action plan for your school with progress updates through the SNAG meetings.
